

Certificate III in Civil Construction Plant Operations with Australian Employment Services (AES)

Course Overview

This qualification covers the skills and knowledge required by a skilled operator working with civil construction plant. Participants in this qualification can specialise by choosing electives relating to the plant and equipment they need to operate to work effectively in their workplace.

Training for this qualification covers important skills needed in the workplace such as communication, teamwork, problem solving, initiative, planning and self-management.

AES trains your employee on site to work with your policies and procedures and use your plant and equipment.

Eligible students may receive subsidised funding through the Tasmanian Government and Commonwealth Government.

As AES is also a Group Training Organisation we can employ the trainee and lease them to your business. You become the host employer and only pay for the hours they are onsite and working with you.

Course Requirements

The requirements of the qualification, which is completed over three years, it to complete a total of 19 units of competency – 14 of these are mandatory core units:

RIIBEF201D	Plan and organise work
