

# Certificate III in Civil Construction with Australian Employment Services (AES)

## Course Overview

This qualification covers the skills and knowledge required by a skilled operator across a broad range of civil construction work. Participants in this qualification can specialise by choosing one of the category streams of road construction and maintenance; or pipe laying. There is also a civil construction general stream, where participants can use a wide range of elective units to gain the skills and knowledge they need to work effectively across the industry.

Training for this qualification covers important skills needed in the workplace such as communication, teamwork, problem solving, initiative, planning and self-management.

AES trains your employee on site to work with your policies and procedures and use your plant and equipment.

Eligible students may receive subsidised funding through the Tasmanian Government and Commonwealth Government.

As AES is also a Group Training Organisation we can employ the trainee and lease them to your business. You become the host employer and only pay for the hours they are onsite and working with you.

## Course Requirements

The requirements of the qualification, which is completed over three years, is to complete a total of 25 units of competency. Seven of these are mandatory core units:

RIIBEF201D	Plan and organise work
RIICCM201D	Carry out measurements and calculations
RIICCM203D	Read and interpret plans and specifications
RIIWHS201D	Work safely and follow WHS policies and procedures
RIISAM203D	Use hand and power tools
RIISAM204D	Operate small plant and equipment
RIICOM201D	Communicate in the workplace

AES can provide a comprehensive list of elective units and assist you with your choice of 18.
